As a front-end developer, I'm passionate about creating immersive digital experiences. With knowledge in HTML, CSS, and JavaScript, I specialize in turning design thoughts into dynamic, user-friendly websites. From maximizing performance to staying ahead of trends, quality is my dedication to every project.

SKILLS

EXPERIENCE

Front-End Developer

Radiant Support Services (PH) Inc.

2021 - 2022

- Maintained the current website and added more appealing features
- Redesigned sections of the website to ensure a more attractive and user-friendly experience
- Worked with a team of five web developers and provided end-to-end solutions for 7 clients

Web Developer (Freelance)

2022 - Present

- Customize backend logic and frontend design to meet customer preferences and project specifications.
- Oversee beta version rollout and server maintenance to ensure rigorous application testing.
- Manage the deployment of beta versions and the server infrastructure required for full application testing.
- Encourage collaboration among team members to brainstorm and build creative backend solutions that integrate seamlessly with frontend components.
- Continuously optimize both the backend and frontend components of projects to improve performance, usability, and overall user experience.
